THE STATE'S DISGRACE.

REPORTS OF MORE INDICTMENTS WHICH EXCITE THE

Capital—Weaver, the Perjuror, to Get a Continuance and Youtser, the Convicted, His Sentence.

Frankfort, Ky., Feb. 4.—It is rumored that Gen. Collier, Gen. Duke, Sharp, Clav, Elkin, Stanley and Milward, all of whom are prominent gentlemen, are among those indicted by the late grand jury for connection with the O'Connell assassination. The report created much interest and also feeling and the people are asking themselves who will be spared the designs of the gang or the head of such influences.

Georgetown, Ky., Feb. 4.—The case of "Barber" Weaver, indicted for perjury in the O'Connell case, has been postponed until this afternoon, but it may again be deferred. H. E. Youtser may be sentenced this afternoon and also an appeal of the case taken.

BOERS ARE ACTIVE

KITCHENER REPORTS DE WET ANCOMING TO CAPE COLONY.

London, Feb. 5.—Lord Kitchener reports that Gen. DeWet and his force have reached a point south of DeWet'sburg, indicating that the Boer commander is rapidly sweeping toward Cape Colony.

Gen. French, the commanding general says he is near Bethel, driving a force of Boers eastward.

FAMINE IN CHINA.

CANNIBALISM PRACTICED—TERRIBLE SUFFERINGS ARE REPORTED.

London, Feb. 5.—Chinese advices assert the famine in the province of Shensi and Shensi is the worst in the history of China. Two-thirds of the people are without sufficient food. Bitterly cold weather adds to the suffering.

For three years the crops have failed in both provinces, and this has brought the people to their present state. Cannibalism is practiced to a considerable extent. Parents, driven insane by want and the appeals of their children for food, kill the little ones rather than listen to their cries of distress and see their sufferings.

Infanticide is increasing on a terrible scale and women are sold by their husbands or sell themselves for food. The Chinese government has been doing all it could for the sufferers, but this, because of the unsettled state of the country, is but little. The population of Shensi is 12,000 and of Shensi 9,000.

WIFE MURDERER HANGED. Camden, N. J., Feb. 5.—Robert Hill was hanged here today. The charge against him was brutal wife murder.

BEROUSELY ILL. New York, Feb. 5.—Olga Nether, 50, the actress, is quite ill here. Her condition is serious.

MRS. NATION

BREAKS OUT AGAIN. THIS TIME IN TOPEKA, KANSAS.

Though Foiled Yesterday She Makes an Early Successful Raid Today.

Topeka, Kans., Feb. 5.—Mrs. Nation, the saloon smasher, with a small party of raiders, last evening made an attempt to "do" a saloon here. It was a dismal failure, for Mrs. Nation was not only arrested but her supporters were routed. A small riot was the result of the attack. Mrs. Nation made several street speeches after being released, and in each vowed to destroy the shops of the city. And as true to her word this morning before 9 o'clock she was out and at the work and had soon smashed two joints. She was again arrested and is now in jail charged with disorderly conduct and destruction of property.

ALMOST A LAW.

THE HOUSE ADOPTS THE SENATE AMENDMENTS TO THE

Kentucky Judicial Bill and It Now Goes to the President for His Signature.

Washington, Feb. 5.—The house has agreed to the senate amendments to the Kentucky judicial bill. This places the act to the president, who will, it is agreed, sign it without any hesitancy.

MILITARY STARS NAMED.

Washington, Feb. 5.—The president sent a large list of military appointments to the senate yesterday and today. Gen. N. A. Miles is made a lieutenant general; F. D. Grant a brigadier general; A. R. Chaffee a major general, etc. The list is very long one.

DIED IN FLORIDA.

MRS. J. K. GREER RECEIVES NEWS OF HER SISTER'S DEATH.

Mrs. J. K. Greer today received news of the death of her sister, Mrs. C. H. Lefler, at Sanford, Fla., yesterday, after a long illness. The deceased was about 50 years of age, and leaves two sisters in Paducah, Mesdames J. K. Greer and S. H. Piles. —Smithland Reformer please copy.

COUNTY COURT.

Mr. R. N. Allie today qualified as administrator of the estate of the late Mrs. Martha Jones.

The deeds made in dividing the John Beyer estate were filed by Special Commissioner W. F. Bradshaw, Jr., and ordered recorded.

J. P. Newman qualified yesterday as a deputy clerk, for country districts.

County Clerk Chas. Graham was ordered to pay into the hands of the trustee of the jury fund, \$694.

OLD LANDMARK.

THE BROOKS' INFIRMARY BUILDING BEING RAPIDLY TORN DOWN.

The Brooks' infirmary building, now being torn down for the new opera house, is one of the oldest houses in the city. It was years ago the home of Dr. McFarland, a homeopathist, and was considered "haunted." In a few days the work of demolition will be complete.

POSTOFFICE ROBBERS.

MAN ARRESTED AT PRINCETON AND TAKEN TO HOPKINSVILLE

By Deputy United States Marshal LaRue—No Confesses and Will Be Brought to Paducah For His Trial.

Princeton, Ky., Feb. 5.—Leonard Copeland, a white man, was arrested today on a charge of breaking into the postoffice at Critter, Ky., last fall. He confessed and implicates another man who has not yet been arrested.

Deputy U. S. Marshal LaRue arrived this afternoon from Paducah and took the prisoner to Hopkinsville, where he will be tried before the United States commissioner and if held over taken to Paducah to await the next term of federal court.

GOLD ALONE WOULD LIVE.

MINORITY REPORT ON THE NEW FINANCIAL BILL.

Washington, Feb. 5.—The minority report of the committee on coinage, weights and measures has been prepared by Congressman Shafroth. Objections to the passage of the bill, directing the secretary of the treasury to exchange gold for legal tender silver dollars, are: First, because it will impose increased burdens upon the gold reserve. Second, because it will create a new endless chain upon the government reserve of the treasury. Third, because it facilitates the exportation of gold. Fourth, because it will destroy silver dollars and silver certificates as money. Fifth, because it will depress the prices of all commodities and property. Sixth, because it is impossible for silver dollars to go to a discount as long as they are limited in number, as now provided by law—hence there is no necessity for this legislation.

POLICE COURT.

ONLY TWO CASES ON THE DOCKET THIS MORNING.

Today's session of police court was brief.

J. P. Oarland, alias Girard, and Joe Nealand, charged with selling jewelry on the street without a license, were tried and Nealand was fined \$5 and costs, the other man's case being dismissed.

Wm. Ellis, a white man charged with robbery, was granted a continuance and recognized for his appearance. He is charged with having stolen money from a young lady's trunk at Millman James' home, in the North End, and with breaking into the trunks of other boarders.

HAVE DISSOLVED PARTNERSHIP.

Messrs. J. W. Hart and Samuel Womble, who have been running the Hart House, on North Fourth street, have dissolved partnership and Mr. Hart will hereafter run it alone.

SUES FOR DIVORCE.

Emma Chapman, colored, today filed suit in the circuit court against Frank Chapman for divorce, alleging abandonment.

WILL ADD ANOTHER CAR.

Supt. Gus Thompson, of the Street Car company, stated today that another car will shortly be added to the Rowlandtown and passenger depot line, making four cars in all. It will run from Twelfth and Madison streets, and two of the cars will make ten minute trips to the depot.

PROMINENT NEW ENGLANDER HERE.

Mr. P. E. Hayes, one of the principal owners in the Cohanus Co., arrived last night from Pawincket, R. I., and is at the Palmer. He will remain a few days on business.

AT SPRINGFIELD.

PADUCAH MAN SHORTLY TO WED A YOUNG LADY OF MISSOURI.

The banners of Mr. John M. Hoffman, of the city, and Miss Maud White, of Springfield, Mo., were announced at the St. Francis De Sales church Sunday. Mr. Hoffman is son of the well known lumber man of Illinois, and resides on Boyd street. The wedding will occur at Springfield on February 19.

OFFICE MANAGER WANTED.

An established wholesale house, recently incorporated, extending business, desires to engage competent manager for branch house. Salary \$100 per month, expenses and commission. Must invest \$1,000 in capital stock of company, on which dividend of six per cent will be guaranteed, and furnish satisfactory references. Address, Secretary, Box No. 440, Kansas City, Mo.

THE SCHOOLS.

THE TOTAL ENROLLMENT IS NOW OVER 3,000

Pupils The Average Attendance Is 93 1-2 Per Cent of It—An Excellent Showing.

Supt. C. B. Huntfield, of the Paducah public schools, will tonight, at the regular meeting of the school board, render his regular report.

It shows that the total enrollment in the schools is now 3,040. In January last year it was 2,808. The average attendance is 93.5 per cent of the enrollment.

During the month just closed forty-eight white and thirty-three colored pupils were received.

The schools are in a flourishing condition and the term closing last Friday was a most successful one.

ABOUT \$10,000.

THIS WILL BE THE LOSS FROM SUNDAY'S HEAVY

Winds—Eleven Barges in all Flushed Away and Were Sunk—All Are Found.

The loss from Sunday's heavy winds at Brooklyn and Joppa, Ill., was heavier than at first assumed.

The Ayer, Lori Tie company, of Chicago, were the heaviest losers. They had eight barges with 53,000 ties at Brooklyn. Three were sunk and four broke loose and were swamped, one opposite Brooklyn, one at Belgran, one near Metropolis and another below Brooklyn.

The barges are badly damaged, and in addition about 5,000 ties were lost, having floated down the river. The J. H. Wilson, or "Whisper" company, lost two barges with 4,000 ties. One of the barges broke in two and the loss on it will be several hundred dollars.

The Naugle-Holcomb company, which Capt. J. S. Beatty is agent, had one large sunk at Joppa, but the loss will be comparatively slight, as only two or three hundred of the ties got away. The "J. B. A." has been at work near Brooklyn with the wrecks since yesterday morning and the "Ten Broeck" near Joppa.

Capt. Baker, agent for the Ayer, Lori Tie company, is up the Tennessee river on the Russell Lori, and has not been located, hence he knows nothing about the havoc wrought by the wind.

It is estimated that the total loss at Brooklyn and Joppa, Ill., will approximate \$10,000.

NOT SUICIDE.

"SHORTY" SEXTON PROBABLY LEFT THE CITY ON A TRAIN.

"Shorty" Sexton, who disappeared Sunday, has not yet been heard from. It is thought possible that he may have left the city. The porter at the union depot saw a man wearing a cap and answering Sexton's description at the depot about 6 o'clock Sunday evening, and said he was going to New York. The porter paid no particular attention to him and does not know whether he left on a train or not.

TUESDAY FEB. 5, 1901.

The ship subsidy bill, though it is floating rough sailing, will land all right. The opposition is not as strong as it looks.

Cotton has ranged in price from \$1.90 a pound during the war to less than 5c a pound in 1898. In the last two years and a half it has risen from 5c to \$1.25 and the outlook for the product was never brighter.

Victoria's descendants include now or prospectively the royal heads of Great Britain, Germany, Russia, Greece, Rumania, Hesse and Saxony-Meiningen, and are closely allied with the royal houses of Belgium and Denmark.

There is a strong disposition in Cuba to make Gen. Gomez the first president. The quicker the selection, and others like it, is made the quicker Cuba will discover that independence is not government but only a mode of government.

The Albany correspondent of Leslie's Weekly says that former Senator Hill will not be a candidate for the Democratic presidential nomination. He is said to be devoting his entire attention to law, but he will not altogether retire from politics.

France has just decided to issue postage stamps symbolical of a republican form of government. The conservative postal authorities have not been willing heretofore to approve any allegorical design except figures of commerce and peace.

Great Britain and Germany each employs more than double the percentage of subsidiary coinage used in the United States. The proposition in congress to recoin some of the unprofitable silver dollars into half dollars, quarters dollars and dimes is attracting much attention.

The Sun, when the call came out some days ago, said another raid on that \$100,000 steel would be the result of the meeting of the reward commission, and it also said, to justify the raid, some one would be charged with participating in the crime. The arrest of Capt. Ripley and the noise being made by the gang is the explanation.

The indictment under which Capt. Ripley, of Henry county, was arrested, for connection with the Goebel assassination, charges that he "counselled and procured" Yontsey to do the work. There is but one conclusion and that is, the gang wanted a new reward fund and some political opponent had to be made a scapegoat for the stealing. The Lexington Herald sees the matter in a similar light and with force says: "There is not a man in the world who knows Garrett Ripley who does not know that this indictment is a lie—either based on perjured testimony or found by grand jurors who consciously violated their oath. What new Weaver has been found; what new Noaks has been subjected; what new Wharton Golden has been purchased, has not been revealed."

CUBA'S CONSTITUTION.

There is a high point of equity and statesmanship in whether the constitution of Cuba should be submitted to congress. Unless this country is to exercise some rights over the island, whether independent or not, it would seem the question is one of no concern, and this is a plain view. If the United States is to exercise this control then the proposed constitution should be tendered on a silver and with it the words take and adopt and live thereunder.

Though Cuba's constitution is modeled generally upon our own, it necessarily differs from it in various details. Many of the established institutions, traditions and customs of communities of Spanish origin are quite different from ours, and to seek to make them conform in all respects to those of English origin would be to invite failure.

Their whole system of jurisprudence, for example, differs widely from ours, and certain rights carefully guarded in the organic law of all our states do not enter conspicuously into their consideration.

Now if congress is to pass upon the Cuban constitution, it must either approve some things that do not accord with our system and the omission of things that Americans would think essential, which would be stultifying, or else it must undertake to force the Cubans to accept ideas foreign to them, which would be unjustifiable and outrageous.

The only practicable as well as the only reasonable course is to recognize the right of the Cuban people to institute their own government. "Laying its foundation on such principles and organizing its own powers in such form as to them shall seem most likely to effect their safety and happiness." Later on, if the islanders can't control themselves, this country can, and should, take them under its wing as a right, morally, commercially, and as a Christian guardian.

PHILIPPINES AS SOLDIERS.

Secretary Root has sent orders to Gen. MacArthur to proceed at once to enlist ten regiments of Filipinos, to be used in the islands, and release some of the American soldiers serving there. This action has been taken at the recommendation of the Taft commission, which declares that while the American soldier is unsurpassed in war, he does not make the best policeman in the Philippines. Native troops should in the main, the commission believes, be officers by Americans. Certainly this should be the case as to their field officers and company commanders. Lieutenant might be Filipino and provisions might be made, it suggests, for their promotion in the event of faithful or distinguished service.

COUNTY ATTORNEY RESIGNS.

Princeton, Feb. 5.—J. T. Coleman, who has served two terms as county attorney, has resigned and will leave with his family for Paola Valley, Indian Territory, where he will reside in the future. R. W. Lisinsky, who is announced as a candidate for the Democratic nomination, was appointed to fill out the unexpired term.

CANDIDATES WITHDRAWN.

Princeton, Feb. 5.—A number of candidates who had announced for the Democratic nomination for county offices have pulled off, among them being Charles Martin, for assessor; Henry Davis, for county superintendent, and Calvin Buckner, for jailer.

COLLEGE NOTES.

The attendance at Missouri University is over 1,300 or nearly double the number of students in 1894 and 1895. The enrolment at the University of California will exceed 3,000 students. Within ten years the attendance has increased 4 per cent.

Professor Brainer Matthews has opened a new course of lectures on the history and methods of English comedy at Columbia University.

Colorado college opened its fall term with the largest enrollment in its history. Dr. John C. Shedd and Dr. Thomas K. Urdahl have been added to the faculty. Work on a new science building will be commenced soon.

Dean Huntington of Boston University has given the students to understand that no sophomore-freshman fraternities will be tolerated, and the freshman class was permitted this year to hold its election in peace.

Logging operations on the tract of the Cornell College of Forestry, in the Adirondacks, are in full blast, some thirty-five men being employed. Forty men are engaged in building a railroad six miles in length, which is to be in operation by Dec. 1.

The largest building in this country devoted solely to agricultural education is that which now stands on the south campus of the University of Illinois. In its construction \$150,000 has been expended, and the equipment will cost still \$15,000.

SALARY RAISED

THE HEALTH OFFICERS PAY INCREASED TO \$250.

Very Little of Interest Done at the Regular Meeting of the Council Last Night.

All councilmen except Mr. Davis, who is ill, attended the council meeting last night.

The regular bills were allowed and City Tax Collector Krans' report showed collection of \$578.14 and Wharfmaster Fowler's \$443.

The committee appointed to dispose of city property on Island creek to Mr. Louis Kolb reported that it had been sold for \$400, which action was ratified.

Joseph Davidson was granted coffee house license at 193 South Third.

Don Gilberto's coffee house license at Fifth and Norton was transferred to Cal Waggoner.

Wilfred Marshall applied for a coffee house license at 104 Court street. A protest from residents and property owners provoked discussion, but the license was granted by a vote of 8 to 3. Councilmen Jackson, Bonduant and Rudolph voting nay.

Enoch Brown applied for a coffee house license at Eleventh and Tennessee streets, where Phil Stephen was two or three times refused. After considerable argument the license was refused by a vote of 8 to 3. Councilmen Gilson, Smith and Jones voting in favor of it.

Chief Woods' regular fire report was filed. It showed average water pressure for the month to have been 48 pounds.

The bondsmen of stationmen were accepted as follows: Ed Shanks, W. Y. Noble, Ben Weille and Louis Levy; Harvey Allen, Chris Liebel, Elmo Carter and James Glanzer; John McFadden, James Weille, Peter Rogers and John Rindell; William Craft, W. Y. Noble, James Eaker and James Robertson; William Burton, Bud Quinnes, Peter Rogers and George Towell; James Trease, Joseph Gardner, Joseph Yeiser and J. C. Gilbert, Jr.; Joseph Cook, Joseph Potter, James Robertson and James Weille; Jake Elliott, Charles Smalley, Charles Reed and George Ochelschlaeger; John Singhter, John Terrell, Wm. Carterjohn and James Robertson.

Mayor Lang made a report relative to the conference of committee appointed by various organizations to look after the sanitation of Paducah, saying an agreement had been reached to increase the health officer's salary to \$250 a year, no fees to be collected by him for anything. The agreement was received and concurred in, and an ordinance based on it given first passage.

Don Meyer, colored, was granted a reduction of \$100 on property at 821 South Fifth, assessed at \$600.

The request of the late C. W. King, for reduction in property assessment on North Sixth street, was referred back to the relief committee with power to act.

The prayer for relief from over assessment from Geo. Short, on horses and wagons, was refused.

The finance committee was authorized to make settlement with J. T. Willett, who claims \$25.00 for damages to a hack.

Five dollars and sixty-five cents assessed against Mr. R. Rowland, for taxes on houses he had previously sold, was assessed against Mr. John Van Culin, who bought them.

The committee appointed to investigate the duties of various members of the police department was granted further time.

Further time was granted the committee to investigate the advisability of placing a light at Sixth and Clark. Councilman Hymnark was instructed to notify Street Inspector Utterback of some bad places on North Sixth street, between Trimble and Boyd.

The matter of improving Ninth street from Jones to Elizabeth, on account of fills that would have to be made, was deemed inadvisable by the committee, on whose recommendation it was referred back.

The street committee was empowered to purchase some property in

Mechanicsburg needed in case one of the streets should be extended.

It is owned by Messrs. E. O. Bous and Geo. Langstaff.

Dave Cassell's police powers as watchman for the Illinois Central were renewed.

The matter of refunding Mrs. Agnes Neal \$1.50 toll tax paid for her son, who has resided in Arkansas for the past 19 months, was referred.

The \$34 claim of Contractor Ed Terrell for work done on North Eighth street, against the Palmer estate, was referred to the city attorney.

On motion the council adjourned.

HERSIEAN FLY IN WHEAT.

Reports come from the wheat section of both Kentucky and Tennessee that the Hessian fly, the farmers' scourge, in manifesting itself largely in the young wheat. At this time it is impossible to tell just what the extent of the damage will be, but when spring comes on this can be pretty well estimated. At present it can be said that indications are that the damage will be quite considerable. Out in Kansas the fly is also manifesting itself and the farmers of the cyclone state are fearful lest this year's wheat crop will fall very considerably below the high water mark of 85,000,000 bushels, which was established last year.

"They have seen parties here who have local capital and claim to have fine accommodations. This company proposes to run fine, comfortable passenger and freight cars. They propose to run a freight department by which they can carry farmers' crops to town and deliver coal and city goods at their doors. An Enterprise man interviewed one of the parties and he says that it is a sure go and the prospects are that in one year the road will be complete."

KING EDWARD RESCUED

THE LIBERTY BELL.

The Prince of Wales, during his visit to Philadelphia in 1880, rescued the Liberty Bell from a dirt heap and raised it to that position which it now occupies in the American people's hearts.

Home ironical citizen conceived the idea of taking the prince to Independence Hall to view the treasures which are the most forcible reminder of America's "debt" to her mother country.

The prince saw the portraits of the men who stirred up the revolution, and he did not gaze listlessly at them, but made complimentary comments upon them. He looked with interest on the manuscript of the Declaration of Independence, and he did not think when he had placed in his hands the sword of men who bowed down the flower of his royal progenitor's army.

Finally he came to a remark. This was where the bell was hung when the Declaration was read, he was told. Then he wanted to know what had become of the bell. They found it for him with the aid of their cases. It was hidden away beneath a mass of peanut shells, orange peels, waste paper and other debris.

No one seemed to mind what had been discovered except the Prince of Wales. He was apparently appalled. For the moment he forgot he was a Briton; he gazed upon the scar-cracked bell that had rung at a nation's birth, and then he spoke the words that made the American people see that they were noble (all).

"This old bell," he said, "with greatest relic this republic has taken. Instead of being here, covered with this accumulated dirt, it should occupy the chief place of honor in this hall of Independence. How to you wish the Magna Charta to be England. It is cracked, but it is an inspiration. Believe me, my friends, it affects me more than anything I have been shown."

That was the renaissance of the Liberty Bell. No more dirt was thrown upon it. During the civil war its name was used to stir the union soldiery, and then when the Chicago world's fair began it was taken there so that men and women from all parts of the world might see it. Today the Liberty Bell is America's greatest relic, and King Edward VII. made it so. —Philadelphia Press.

THE KING A MASON.

King Edward VII. is the grand master of the Grand Lodge of England, Ireland, Scotland, Wales and other countries in the dominions of Great Britain except possibly Canada, and is also grand prior of the order of Knights Templar in England, and grand patron of the Ancient Accepted Scottish Rite of Freemasonry in the United Kingdom, having received the thirty-third and last degree in that branch of Freemasonry. He has been identified with the Masonic order for over thirty-two years, and there is not a member throughout the world who takes deeper interest in the affairs of the order, or is more active in its welfare.

INDUSTRIAL EMANCIPATION.

A remarkable meeting was recently held in Boston to further a movement of co-operative industry, designed to give employment to the unemployed and furnish unquestioned proof of the value of popular combination in preventing suffering, poverty, dirt and failure among the co-operators.

Mr. Henry Demarest Lloyd delivered a remarkable address on the occasion. He declared that co-operation meant a new social order, in which all men should be workers and all workers partners. It brought together, in the efforts to establish this order, to realize a world of wealth and brotherhood, the workman and his employer, the trade unionist and the capitalist, the Socialists and the churchman.

Co-operation is no Utopian idea; it has passed the age of experiment. In Great Britain co-operative stores and factories have, in a single generation, so grown that they now represent a membership of one-seventh of the British population, doing a business, including manufacturing, of \$273,000,000 a year, having a bank of their own with deposits amounting to \$10,000,000 and turning over the enormous aggregate of \$200,000,000 a year.

In this movement was found the real cooperation of capital and labor. "If," said Mr. Gargan, another speaker at the Faneuil hall meeting, "the working people of England have, in one generation, done so much, what may not be done by American workmen and women, with their greater alertness and brighter mentality?"

Mr. Lloyd pointed out that the American people were a co-operative people, instinctively the success achieved in co-operative industry, in such associations as the Foresters and others, further to everybody. The strong movement and that of the Farmers of Ireland proved our farmers gifted in a high degree with co-operative ability, certain to manifest itself further and more enduring effort.

Co-operation had met with extraordinary success in Europe, upon whose tolling masses it had bestowed unlimited good. The stores it had established in England, tin people's banks it had called into being on the continent, the farmers' buying and selling co-operatives and other agricultural associations in Ireland, had done wonders to improve the people and strengthen the state.

Co-operation, he proposed to erect, on the cooperative plan, a temple of labor and a college of labor, to be built by workmen and owned by workmen. The money needed for the purpose will be borrowed, partly upon the membership fees of active members, partly from labor unions, partly from the savings of workmen, and partly from loan associations.

Mr. Gargan declared that in co-operation lay the solution of the trust question. He appealed to all workmen, capitalists, directors in great financial institutions, conservative men and women of the country, to meet the vital question of the hour. Universal education had produced wants, and these wants general discontent. All must then work for justice, for justice is, as Plato has it, "the health of the state."

TUESDAY FEB. 5, 1901.

The ship subsidy bill, though it is finding rough sailing, will land all right. The opposition is not as strong as it thinks.

Cotton has ranged in price from \$1.90 a pound during the war to less than 50c a pound in 1898. In the last two years and a half it has risen from 50c to \$1.25 and the outlook for the product was never brighter.

Victoria's descendants include now or prospectively the royal heads of Great Britain, Germany, Russia, Greece, Romania, Heese and Saxe-Mainingen, and are closely allied with the royal houses of Belgium and Denmark.

There is a strong disposition in Ohio to make Gen. C. G. Corbin the first president. The quicker the selection, and others like it, is made the quicker Ohio will discover that independence is not government but only a mode of government.

The Albany correspondent of Leslie's Weekly says that former Senator Hill will not be a candidate for the Democratic presidential nomination. He is said to be devoting his entire attention to law, but he will not altogether retire from politics.

France has just decided to issue postage stamps symbolical of a republican form of government. The conservative postal authorities have not been willing heretofore to approve any allegorical design except figures of commerce and peace.

Great Britain and Germany each employs more than double the per capita of subsidiary colonies used in the United States. The proposition in congress to reduce some of the superfluous silver dollars into half dollars, quarters and dimes is attracting much attention.

The Sun, when the call came out some days since, said another raid on that \$100,000 steel would be the result of the meeting of the reward commission, and it also said, to justify the raid, some one would be charged with participating in the crime. The arrest of Capt. Ripley and the note being made by the gang is the explanation.

The indictment under which Capt. Ripley, of Henry county, was arrested, for connection with the Goebel assassination, charges that he "counseled and procured" Yontsey to do the work. There is but one conclusion and that is, the gang wanted a new reason to dish into that \$100,000 reward fund and some political opponent had to be made a scapegoat for the stealing. The Lexington Herald sees the matter in a similar light and with force says: "There is not a man in the world who knows Garrett Ripley who does not know that this indictment is a lie—either based on perjured testimony or found by grand jurors who consciously violated their oath. What new Weaver has been found; what new Noaks has been subjected; what new Wharton Golden has been purchased, has not been revealed."

CUBA'S CONSTITUTION.

There is a high point of equity and statesmanship in whether the constitution of Cuba should be submitted to congress. Unless this country is to exercise some rights over the island, whether independent or not, it would seem the question is one of no concern, and this is a plain view. If the United States is to exercise this control then the proposed constitution should be tendered on a silver and with it the words take and adopt and live thereunder.

Though Cuba's constitution is modeled generally upon our own, it necessarily differs from it in various details. Many of the established institutions, traditions and customs of communities of Spanish origin are quite different from ours, and to seek to make them conform in all respects to those of English origin would be to invite failure.

Their whole system of jurisprudence, for example, differs widely from ours, and certain rights carefully guarded in the organic law of all our states do not enter conspicuously into their consideration.

Now if congress is to pass upon the Cuban constitution, it must either approve some things that do not accord with our system and the omission of things that Americans would think essential, which would be stultifying, or else it must undertake to force the Cubans to accept ideas foreign to them, which would be unjustifiable and out of place.

The only practicable as well as the only reasonable course is to recognize the right of the Cuban people to institute their own government, "laying its foundation on such principles and organizing its own powers in such form as to them shall seem most likely to effect their safety and happiness." Later on, if the islanders can't control themselves, this country can, and should, take them under its wing as a right, morally, commercially, and as a Christian guardian. Annexation, however, is not foreign to the conditions. It draws on a pace without doubt.

PHILIPPINES AS SOLDIERS.

Secretary Root has sent orders to Gen. Arthur to proceed at once to enlist ten regiments of Filipinos, to be used in the islands, and release some of the American soldiers serving there. This action has been taken at the recommendation of the Taft commission, which declares that while the American soldier is unsurpassed in war, he does not make the best policeman in the Philippines. Native troops should be in the main, the commission believes, be officered by Americans. Certainly this should be the case as to their field officers and company commanders. Lieutenant might be Philippine and provisions might be made, it suggests, for their promotion in the event of faithful or distinguished service.

COUNTY ATTORNEY RESIGNS.

Princeton, Feb. 5.—J. T. Coleman, who has served two terms as county attorney, has resigned and will leave with his family for Paris Valley, Indian Territory, where he will reside in the future. R. Winfrey & Marshall applied for a coffee house license at 104 Court street. A protest from residents and property owners provoked discussion, but the license was granted by a vote of 8 to 3. Councilmen Jackson, Bondurant and Rudolph voting nay.

Enoch Brown applied for a coffee house license at Eleventh and Tennessee streets, where Phil Stephenson was two or three times refused. After considerable argument the license was refused by a vote of 8 to 3. Councilmen Gilson, Smith and Jones voting in favor of it.

Chief Woods' regular fire report was filed. It showed average water pressure for the month to have been 48 pounds.

The bondsmen of stationmen were accepted as follows: Ed Shanks, W. Y. Noble, Ben Weille and Louis Levy; Harvey Allen, Chris Lelbel, Elmo Carter and James Glauber; John McFadden, James Weille, Peter Rogers and John Rindiffe; William Craft, W. Y. Noble, James Eaker and James Robertson; William Burton, Ed Quarles, Peter Rogers and George Towell; James Treasa, Joseph Gardner, Joseph Yeiser and J. O. Gilbert, Jr.; Joseph Cook, Joseph Potter, James Robertson and James Weille; Jake Elliott, Charles Smedley, Charles Reed and George Oehlhaefer; John Slaughter, John Terrill, Wm. Katterjohn and James Robertson.

Mayor Lang made a report relative to the conference of committee appointed by various organizations to look after the sanitation of Paducah, saying an agreement had been reached to increase the health officer's salary to \$250 a year, so fees to be collected by him for anything. The agreement was received and concurred in, and an ordinance based on it given first passage.

Dan Meyer, colored, was granted a reduction of \$100 on property at 821 South Fifth, assessed at \$600.

The request of the late C. W. King, for reduction in property assessment on North Sixth street, was referred back to the relief committee with power to act.

The prayer for relief from over assessment from Geo. Short, on horses and wagons, was refused.

The finance committee was authorized to make settlement with J. T. Willett, who claims \$35.50 for damages to a hack.

Five dollars and sixty-five cents assessed against Mr. R. Rowland, for taxes on houses he had previously sold, was assessed against Mr. John Van Culin, who bought them.

The committee appointed to investigate the duties of various members of the police department was granted further time.

Further time was granted the committee to investigate the advisability of placing a light at Sixth and Clark. Councilman Hymarsh was instructed to notify Street Inspector Utterback of some bad places on North Sixth street, between Trimble and Boyd.

The matter of improving Ninth street from Jones to Elizabeth, on account of fills that would have to be made, was deemed inadvisable by the committee, on whose recommendation it was referred back.

The street committee was empowered to purchase some property in

Mechanicsburg needed in case one of the streets should be extended.

It is owned by Messrs. K. G. Boone and Geo. Langstaff.

Dave Cassell's police powers as watchman for the Illinois Central were renewed.

The matter of refunding Mrs. Agnes Neal \$1.50 poll tax paid for her son, who has resided in Arkansas for the past 18 months, was referred.

The \$34 claim of Contractor Ed Terrell for work done on North Eighth street, against the Palmer estate, was referred to the city attorney.

On motion the council adjourned.

HESSIAN FLY IN WHEAT

Reports come from the wheat section of both Kentucky and Tennessee that the Hessian fly, the farmers' scourge, is manifesting itself largely in the young wheat. At this time it is impossible to tell just what the extent of the damage will be, but when spring comes on this can be pretty well estimated. At present it can be said that indications are that the damage will be quite considerable. Out in Kansas the fly is also manifesting itself and the farmers of the Cyclone state are fearful lest this year's wheat crop will fall very considerably below the high water mark of 85,000,000 bushels, which was established last year.

ELECTRIC RAILWAY.

BETWEEN FULTON, HICKMAN AND UNION CITY TALKED OF

Says the Fulton Enterprise: "Parties were in the city Tuesday looking over the ground with a view to organizing an electric railroad between here, Union City and Hickman. Just now they do not wish their names mentioned, but they are in earnest and say that electric cars running between these points is one of the possibilities of the first year of the twentieth century."

"They have seen parties here who have local capital and claim to have good encouragement. This company proposes to run fine, comfortable passenger and freight cars. They propose to run a freight department by which they can carry farmers' crops to town and deliver coal and city goods at their doors. An Enterprise man interviewed one of the parties and he says that it is a sure go and the prospects are that in one year the road will be complete."

KING EDWARD RESCUED THE LIBERTY BELL.

The Prince of Wales, during his visit to Philadelphia in 1860, rescued the Liberty Bell from a dirt heap and raised it to that position which it now occupies in the American people's hearts.

Some ironical citizens conceived the idea of taking the prince to Independence Hall to view the treasures which are the most forcible reminder of America's "deficit" to her mother country.

The prince saw the portraits of the men who stirred up the revolution, and he did not gaze listlessly at them, but made complimentary comments upon them. He looked with interest on the manuscript of the Declaration of Independence, and he did not treat the words of men who lowered down the flower of his royal progenitor's arm.

Finally he came to a remark. This was where the bell was hung when the Declaration was read, he was told. Then he wanted to know what had become of the bell. They found it for him with the aid of their camera. It was hidden away beneath a mass of walnut shells, orange peels, waste paper and other debris.

No one seemed to mind what had been discovered except the Prince of Wales. He was apparently appalled. For the moment he forgot he was a Briton; he gazed upon the four cracked bell that had rung at a nation's birth, and then he spoke the words that made the American people see that they were not a fool.

"This old bell," he said, "is the greatest relic this republic has today. Instead of being here, covered with this accumulated dirt, it should occupy the chief place of honor in this hall of Independence. It is to you what the Magna Charta is to England. It is cracked, but it is an inspiration. Believe me, my friends, it affects me more than anything I have been shown."

That was the renaissance of the Liberty Bell. No more dirt was thrown upon it. During the civil war its name was used to stir the union soldier, and then when the Chicago world's fair began it was taken there so that men and women from all parts of the world might see it. Today the Liberty Bell is America's greatest relic, and King Edward VII. made it so.

RAILROAD NEWS.

Nearly all of the big railroads will be compelled to discard their smaller freight cars of 30,000 and 40,000 pounds capacity. The 60,000 pound cars pull the other ones in a long train, and it is dangerous to continue their use, as well as being a source of expense for repairs. The Big Four is receiving 3,000 new freight cars, and will have 20,816 in the service when the order is filled. The American Car and Foundry company is negotiating to furnish 2,000 freight cars for a Paris road. It recently furnished 500 cars for Spain and 100 for South Wales. It also built 500 cars for a New Zealand road.

The Pullman Palace Car company has issued an order that hereafter no berth will be reserved after 4:15 p. m. unless paid for.

While the rates to Buffalo on account of the Pan-American Exposition have not been formally announced, it is expected the recommendations already made by the Central Passenger Association will be carried out. The rates suggested are: One fare and one-third for fifteen day tickets, one fare and one-third for special excursion tickets, and one fare the round trip for five day tickets. The rates will be announced officially as soon as Buffalo arrives the railroads that there will be no scalping. It is expected the business will be very heavy.

The Brotherhood of Locomotive Firemen has assessed its members in Indiana fifty cents each to pay the expenses of a legislative committee which is looking after their interests at Indianapolis. The assessment will yield \$418.30.

The railroad boys will have their little jokes. On the east end of the Illinois Central is a section foreman who is very much of a ladies' man. In fact his popularity with the fair sex is such as to often excite the envy of some of his less fortunate companions.

Not long ago a farmer sold the company some wood, and wanted it measured up so he could collect his money. The foreman was unable to look after it with a promptness satisfactory to the farmer, who waylaid one of the conductors as his train came in at the little station, and said: "Oh, Mister Conductor, how am I to get that foreman down here an' measure that wood?"

"Share," spoke up one of the section men who happened to overhear the question, "just dress up that woodpile in wimmen's clothes an' beorra ye'll have an further trouble in fouldin' the boss!"

QUIET MARRIAGE.

DR. W. F. ALVEY MARRIES A VISITING YOUNG LADY.

Dr. W. F. Alvey, of Paducah, and Miss Maude Miller, of Elizabethtown, Franklin county, were united in marriage at 8 o'clock last evening, at the home of Mr. and Mrs. James Glander, brother-in-law and sister-in-law of the groom, at Third and Washington streets. Rev. W. E. Cave, of the First Presbyterian church, officiating. Only a few relatives and friends witnessed the ceremony. The bride is a pretty and attractive young lady who has for the past two weeks been visiting Mr. and Mrs. Glander. She and Dr. Alvey, who resided in the same county, Franklin county having been his former home, have been sweethearts for several years, and the wedding was unostentatious on account of a recent bereavement in the bride's family.

Dr. Alvey is a rising young physician, who has a lucrative practice, and stands high in the estimation of all who know him. Dr. and Mrs. Alvey will take no bridal tour, but will be at home at Mrs. Glander's.

Mr. E. W. Sartor, the jeweler at Wolf's, is quite ill from grippa.

Mr. W. L. Wilkerson, of Palmer, Wilkerson & Kirby, is suffering from an attack of grippa.

Mrs. May Blossom Rieck has recovered from her illness and resumed her classes at the high school.

Capt. Wayne Turner, of the wharft boat, is laid up from grippa.

Sheriff Howes is able to sit up, and hopes to shortly be out.

MAILED THE BOAT.

BUT SHE COULD NOT BE STOPPED—AFTER DAVE RAY.

Efforts to capture Dave Ray, colored, wanted here for shooting Isaac Jackson, colored, have thus far proved fruitless.

He roved not after the shooting in a skiff and caught the Russell Lord, going up the Tennessee river on her.

Last night the sheriff, in obedience to a telegram from the police authorities here, hailed the boat at Johnsonville, Tenn., but could not stop her.

Efforts have also been made to notify her officers by telegraph in regard to the tie boats at Brooklyn, but thus far she has not been located.

A. Maderson, of the college, went to Paducah yesterday—Mrs. Charles Shelton, after a visit of a few days to her former home here, returned to Paducah this morning."

This article, which refers to Sam G. Smith, who takes pleasure in copying, as Sam need to stemboat out of Paducah as a river clerk and was quite popular: Sam G. Smith, of 1333 Whittier street, St. Louis, has pleased this reporter very much by sending him a calendar for 1901 on which are good pictures of the famous Robt. E. Lee and the Grand Republic, two of the finest boats that ever floated. The boats are lying side by side at the Cairo city wharft, the like of which will never be seen again. As all old timers will remember the Lee was built by the late Capt. Cannon and the Republic by Capt. Wm. Donaldson. No doubt Mr. Smith will be glad to accommodate his river friends with a copy of the calendar at a moderate price, and it is a very pretty and useful ornament for the office.—Vicksburg Herald.
